Subject: RE: July 12th meeting with Regional Administrator Stoker

Yes, there are many issues. He is on the road meeting with tribes, and becoming familiar with community issues, Superfund sites, our Pacific Islands' territorial needs, and many other issues associated with our vast region. I'm sorry there isn't more time for this particular meeting, but I'm sure there'll be opportunities to schedule other meetings.

There are dozens of EJ issues facing the most vulnerable communities in Region IX as you know, and we would have hoped the new Regional Administrator could dedicate more than an hour in two months to learning about these issues and demonstrating that environmental health and justice is important to him and the agency.

Thank you for the list of participants and issues. It will be challenging to cover all six matters within the hour, but his schedule is otherwise full for the next two months. Let me know if I can assist as this draws nearer next week.
